

State of Emergency

Garapa English Special Edition issued on September 18th, 2020

A state of Emergency has been declared in Oizumi Town to prevent the spread of COVID-19.

**To hate Corona,
but Not to hate People and Not to hurt People**

Eighteen patients infected with COVID-19 have been confirmed in August and September (based on the announcement by Gunma Prefecture as of September 16th, 2020). On the basis of the current situation above and a proposal by Tatebayashi-Oura Medical Association, Oizumi Town declared the "State of Emergency" for protection of inhabitants' life and health.

As for economical impact, I think that this situation gives uneasiness to those who run service industries such as a restaurant in particular before selling the premium gift certificate, but I made the painful decision to protect inhabitants' life and health first.

Now, wrongful discrimination, prejudices, bullying, or etc. related to COVID-19 should not exist. Please never do harassment and slandering in an absolute.

I will make effort that inhabitants can go for eating out and shopping with a smile.

大泉町長 村山俊明

Toshiaki Murayama, Mayor of Oizumi

1. Target Area: Whole Area in Oizumi Town
2. Target Persons: Inhabitants and Vistors to the town
3. Period: from September 18th (Fri.) to September 30th (Wed.)
(This period may be extended according to the situation.)

[Request Contents]

1. Both adults and children, behave having self-awareness for infection prevention.
 2. Refrain from unnecessary going out which increases a risk of infection.
 3. Avoid three C's and self-restrain from having a meal with many people such as a dinner party.
 4. Practice measures for "Not catching the infection and Not giving the infection", and pay attention to those who may become serious condition particularly such as elderlies, pregnant mothers, and persons who have an underlying disease.
 5. Observe "Guideline for Reopening the Social Economic Action" and you are requested to take prevention measures against COVID-19 strongly.
 6. Refrain from gathering such as BBQ, because gathering people makes a risk increase even though it is outdoors.
- ✂ Please refer to the Gunma Prefecture web-site about Informtion of infected patients.
